Federation Awaits With Interest Address of President To-day in Buffalo

Pacifists Are Active

Socialists Said To Be Planning Opposition to Leadership of Samuel Gompers

BUFFALO, Nov. 11 .- Delegates as-BUFFALO, Nov. 11.—Delegates assembled here for the annual convention of the American Federation of Labor awaited to-night with keenest interest to hear the address which President Wilson will deliver at the opening session of the convention to-morrow.

To most of the 450 delegates here to-night the announcement of the President's coming was a surprise, although it was learned to-night that the invitation to the President to address the

tion to the President to address the convention had been extended to him by the executive council of the federation

in October.

The President is on the programme as the first of the forenoon speakers. He will be escorted from his train to

He will be escorted from his train to the convention hall by a military guard of honor, and is expected to return to Washington soon after his address. "The President," said Samuel Gom-pers, president of the federation, to newspaper men, "will deliver a mes-sage to labor, and through labor to the American people. That's all I can tell you."

There was much discussion also of reports that a pacifist and Socialist demonstration was being planned at the convention in opposition to the leadership of Mr. Gompers and his activities as head of the American Alliance for Labor and Democracy. This is the organization which opposed some time ago at a convention in Minneapolis the alleged pacifist propaganda of the People's Council for Democracy and Peace.

Gompers "Not an Issue"

If such plans were under way, those promoting them were not in evidence around convention headquarters. Memaround convention headquarters.
bers of the federation's executive counbers of the learnations extended that opposition to Mr. Gompers was not an issue at this convention any more so than at previous conventions, when, it was said, that a small opposition faction, chiefly Socialist, had attempted to contest his

pers's "premiership."
When the attention of Mr. Gompers

when the attention of Mr. Gompers was called to the reports of pacifist opposition, he said:
"I know nothing about it. If it is so, it means the Kuiser's agents are at work. Let them go ahead. It will do them no good."

them no good."
That the convention would be asked That the convention would be asset by the executive council to indorse the stand taken by the American Alliance for Labor and Democracy, was a report discussed in this connection among the delegates. It was said that it would probably be on this resolution, if submitted, that pacifist and Socialist apposition would appear.

Delegates are here who are members of the Workman's Cauncil, described

ing the appointment of Baron Sakatani, former Minister of Finance, as financial adviser.

Chinese Army Moves to

Crush Southern Rebels

PEKING, Nov. 11.—The National Council, summoned to act as a Parliament to frame election laws, held its first formal ameeting yesterday with delegates present from all provinces but insists upon securing a mortgage except Yun-na. The President the

the government advised that twelve the government advised that twelve feet was the minimum depth in which to launch a ship at mean low water. Again the question of cost was allowed to intervene. Instructions were given to a Newark engineer to prepare plans for dredging to a depth of seven and one-half feet, although that would not give sufficient depth for launching. The Submarine Boat Company expected to lay the keel for its first ship in February and to be able upon the completion of the first hull to launch two boats a month thereafter. It is doubtful if the first keel can be laid before July.

"4—Labor is the all imnortant question in building ships, but the sites for the government yards have been selected without considering this question.

selected without considering selected without considering built in Atlantic and Gulf ship-yards. Weeks went by before it seemed to be recognized that hulls could not cross the Atlantic without engines. Then the Emergency Fleet Corporation resorted to hoary precedent, advertising for bids for installing the engines, although the country's capacity under existing conditions was filled."

The Patriotic Education Society's shipbuilding critique supports many of the points that have been brought out in the "Ships, Ships, Ships" series now appearing in The Tribune, but its value is depreciated by such overstatements as that it is doubtful whether a single ship will be turned out from the government vards in 1918, and that at the present rate of progress not more than 1.500,000 tons will be built in 1918. The Emergency Fleet Corporation has been undergoing reorganization for several weeks with a view to correcting the faults in its personnel and methods, and its bureaucratic and leisurely methods as well as its lack of big business procedure are about eliminated.

Aero Club Expands Plans for Great Air Mail Route

Besides New York to 'Frisco Line, Additional "Airways" Are Proposed

The Aero Club of America amplified to plans for a great airway service esterday. It announced that, in adition to the New York to San Francisco route it had been decided to

catablish three others.

In addition to the "Woodrow Wilson Airway," as the New York to San Francisco air lane will be known, the Aero Club states that the three additional highways will be known as follows:

tional highways will be known as follows:

The "Wright Brothers' Airway," starting from Washington, D. C., zoing through North Carolina, Georgia, Alabama, Mississippi, Louisiana and Texas, with a station at San Artonio, then through New Mexico and Arizona, ending at San Diego, Cal.

The "Langley Airway," which will start in the State of Washington and end at Los Angeles.

The "Chanute and Bell Airway," extending from Boston to Seattle.

Alan R. Hawley, chairman of the executive committee of the Aero Club, has notified Rear Admiral Robert E. Peary, chairman of the club's committee on aeronautical maps, of the change in plans.

Only haif of the manufacturers of motors and aeroplance in this country are busy at this time, it is stated, because more than half of the \$44,000.000 appropriation for aerial purposes is being used to establish army train-

to appropriation for serial purposes being used to establish army train-

is being used to establish army training camps, with the necessary bangars, barracks and other buildings.

The bulletin concludes:

'The other half have been working at only about part capacity, and some of the manufacturers must go out of business in the near future unless Congress soon grants additional appropriations for aeronautics.

"All these manufacturers will be needed to produce the tens of thousands of aeroplanes demanded by the United States and the Allies and it would be an irreparable loss to permit them to go out of business."

Stewart Week Opens TODAY at WANAMAKER'S

STEWART WEEK is the one week of the year given over by JOHN WANAMAKER (for-merly A. T. STEWART & CO.) to a public demonstration of sincere respect for the memory of A. T. Stewart, who founded 92 years ago the business which the JOHN WANAMAKER STORE took over 21 years ago. The demonstration takes the form of a six days' series of offerings of new wanted goods, specially prepared and priced in co-operation with manufacturers who are glad to join in this tribute to the early 19th century's greatest merchant of the greatest commercial city in the world-a tribute he would have liked better than anything else, because it represents the maximum SERVICE TO THE PEOPLE. Stewart Week begins today, Monday, at 9.

Special preparations have been going on for months. Nearly 100 sections. each specializing in one class of goods, will par-ticipate. Quality of goods offered will be high. Prices will be low. SAVINGS increased by adding Stewart Week savings to "war-time price-lowering policy" savings.

Fair quantities of each, but a rush of buying may deplete stocks early. We reserve right to limit each customer's purchases. None C. O. D.

Remember this sign It was used by chemists It was used by chemists of old to symbolize pure GOLD. It will be used by us to mark only goods that have no peer at their price. When you see goods marked with this sign—BUY.

A Great Sale of Staple Household Linens Opens the Week 2,000 Table Cloths

\$50,000 worth—our rates—at prices which an importer was willing to pay, in cash, for the lot

We can do this only because we planned long ahead. Importations of linens this year are fourteen million square yards less than last year, twenty-three million square yards less than in 1915, fifty-four million square yards less than in 1914, and one hundred and one million square yards less than in 1918. Corresponding with the decrease of imports has been the advance

"Why, I wouldn't take an order to reproduce these linens at 100 per cent. advance on what you are charging"-said a linen importer, referring to the linens in this sale.

To tell the truth, sentiment had a bit to do with the fixing of the prices of these linens.

Linens were A. T. Stewart's hobby. You couldn't find any finer linens than at A. T. Stewart's. We have in stock today-in this sale-some of the same grades of linens that were in the A. T. Stewart stocks of seventy-five years ago. The agent in this city of the manufacturer in Ireland threw up his hands when he heard what we were going to do, and said-"Go ahead and be philanthropic, if you like." Well, we wanted to have in this sale the finest of staple linens at the lowest prices in America today, because linens were one of A. T. Stewart's hobbies and this is Stewart Week.

Now for the merchandise.

768 cluny lace centerpieces and scarfs; were \$1.75 to \$3.75..... \$2.25 813 linen scarfs with imitation filet lace; were \$1.20 to \$1.50..... 75c to \$1 Third Gallery, New Bidg, and Main Atsie, Old Building.

Mr. Stewart liked nothing better than to fill the Main Aisle from Broadway to Fourth Avenue with one special kind of silk at a price far below the market. Sometimes he would sell \$40,000 worth in a day. Following his example, the Silk Rotunda takes

40,000 Yards of Our Own \$2.85 Satin, \$1.50 Yard A satin sold in every first class store in the country at
